NATIONAL AMERICAN UNIVERSITY HOLDINGS, INC. REPORTS FISCAL 2016 FOURTH QUARTER AND YEAR-END RESULTS

Company to host conference call on August 4, 2016, at 11:00 a.m. ET

Financial and Operational Highlights

- * During the FY 2016 fourth quarter, combined enrollment in continuing education/workforce development, graduate, and doctoral programs increased 159.0% from the FY 2016 third quarter and 62.7% from the FY 2015 fourth quarter, respectively. Enrollment by total headcount for the FY 2016 fourth quarter (spring 2016 term) increased 7.0% from the FY 2016 third quarter (winter 2015-16 term) but decreased 14.0% from the prior-year period, to 8,185 students as of May 31, 2016.
- * Balance sheet at May 31, 2016, included cash and cash equivalents and investments of \$25.8 million; taxes receivable of \$3.4 million, working capital of \$25.5 million; no outstanding lending debt; and stockholders' equity of \$40.4 million, or approximately \$1.67 per diluted share.
- * FY 2016 fourth quarter total revenues were \$23.0 million, compared to \$28.9 million in the prior-year period. The Company's academic segment's revenue was \$22.8 million in the FY 2016 fourth quarter, compared to \$28.6 million in the prior-year period.
- * FY 2016 fourth quarter net loss attributable to the Company was \$1.0 million, compared to net income attributable to the Company of \$0.3 million in the prior-year period, primarily as a result of decreased revenues on lower enrollment and fixed educational services expenditures.
- * FY 2016 annual revenues were \$96.1 million, compared to \$117.9 million in the prior year. The Company's academic segment's revenue was \$95.0 million, compared to \$116.3 million in the prior year.
- * FY 2016 annual net loss attributable to the Company was \$5.3 million, compared to net income attributable to the Company of \$6.7 million in the prior year, primarily as a result of the aforementioned lower enrollment and fixed SG&A expenses.
- * The Board of Directors declared a cash dividend in the amount of \$0.045 per share on all shares of the Company's common stock outstanding and of record as of the close of business on June 30, 2016, which was paid on July 8, 2016.

Rapid City, South Dakota, August 3, 2016 — National American University Holdings, Inc. (the "Company") (NASDAQ: NAUH), which through its wholly owned subsidiary operates National American University ("NAU" or the "University"), a regionally accredited, proprietary, multi-campus institution of higher learning, today reported unaudited financial results for its fiscal 2016 fourth quarter and audited financial results for the year ended May 31, 2016.

Ronald L. Shape, Ed.D., Chief Executive Officer of the Company, stated, "We made progress on our various strategic initiatives focused on long-term growth despite a number of challenges facing the industry on the regulatory and economic fronts during FY 2016. I am confident that NAUH is well positioned to meet the needs of students in the ever-changing landscape. We remain committed to serving students and, in that regard, signed an agreement with Westwood College to teach out students at its two Denver, Colorado, ground campuses and its online campus. In recent months, NAU has also accepted transfers from Wright Career College, which operated five campuses in the states of Kansas, Nebraska, and Oklahoma until its closure in April 2016. And most recently, we have signed a memorandum of understanding with Brown Mackie College to facilitate the transfer of its students. Given the overlap in geographic presence with these institutions and excess capacity across our system, we believe NAU will be able to effectively transition and support affected students who wish to continue pursuing their areas of study. We have begun working with students from these institutions and expect our student enrollments will continue to be impacted by institutions that decide to discontinue operations."

Dr. Shape continued, "We continued to make progress on our efforts to provide online degree programs to students in Canada. We are accepting enrollments from students at Canadian institutions with which NAU partners and continue to build the infrastructure that will allow us to scale our efforts while maintaining the compliance requirements of Canadian regulatory authorities. Currently, NAU has online students enrolled from six of the 10 provinces. I am very pleased to share that we have also received the long-awaited approvals for the 17 new academic programs we

developed last spring in the business, healthcare, and transportation services sectors. NAU introduced the first of these programs this summer term and expect our continued investment in our academic offerings will help drive enrollment growth over the long term. In the FY 2016 fourth quarter, we achieved our first winter-to-spring term enrollment increase since spring 2012. Enrollment for the spring 2016 term increased 7.0% from the winter 2015-16 term to 8,185 students. We attribute this increase to our continued focus on our consistently strong national brand recognition and the effective implementation of our strategic initiatives.”

Dr. Shape concluded, “In FY 2016, we continued evaluating our operational efficiencies, aligning expense reductions with revenue expectations to ensure we were supporting the operational goals of the Company. In this regard, we discontinued ground operations at our Denver, Colorado, Tigard, Oregon, and Weldon Spring, Missouri, locations, making sure that the students that were being served by these locations were still fully supported by other resources, such as our online operations. As we enter FY 2017, we will continue to look at ways in which we can leverage our operating flexibility, keeping in mind the specific set of metrics we have in place to preserve the quality and support of our institution. We remain committed to providing valuable academic opportunities to the increasingly underserved student population of working adults.”

Operating Review

Enrollment Update

Total NAU student enrollment for the spring 2016 term decreased 14.0% to 8,185 students from 9,519 during the prior spring term. Students enrolled in 66,008 credit hours compared to 80,396 credit hours during the prior spring term. The current average age of NAU’s students continues to be in the mid-30s, with those seeking undergraduate degrees remaining the highest portion of NAU’s student population.

The following is a summary of student enrollment at May 31, 2016, and May 31, 2015, by degree level and by instructional delivery method:

	May 31, 2016		May 31, 2015

Financial Review

The Company, through its wholly owned subsidiary, operates in two business segments: the academic segment, which consists of NAU’s undergraduate, graduate, and doctoral education programs and contributes the primary portion of the Company’s revenue; and ownership in and development of multiple apartments and condominium complexes from which it derives sales and rental income. The real estate operations generated approximately 1.2% of the Company’s revenues for the quarter ended May 31, 2016.

Fiscal 2016 Fourth Quarter Financial Results

- Total revenues for the FY 2016 fourth quarter were \$23.0 million, compared to \$28.9 million in the same period last year. The academic segment’s total revenue was \$22.8 million, compared to \$28.6 million in the prior-year

period. This decrease in academic segment revenues was primarily a result of a decrease in enrollment, which was driven by weaker market demand among NAU's targeted student demographic, but was partially offset by a Board of Governors-approved tuition increase of approximately 2.5% that became effective in the fall term.

- For the FY 2016 fourth quarter, educational services expense was \$6.8 million, or 29.7% of the academic segment's total revenue, compared to \$7.0 million, or 24.5%, for the FY 2015 fourth quarter. The increase in cost of educational services as a percentage of total academic revenue was the result of fixed faculty costs on lower revenues.

Educational services expense specifically relates to the academic segment, and includes salaries and benefits of faculty and academic administrators, costs of educational supplies, facility costs, faculty reference and support material and related academic costs.

- During the FY 2016 fourth quarter, SG&A expenses decreased to \$16.7 million, or 72.3% of total revenues, from \$19.5 million, or 67.4%, in the prior-year period.
- Loss before income taxes and non-controlling interest for the FY 2016 fourth quarter was \$1.6 million, compared to income before income taxes and non-controlling interest of \$0.8 million in the same period last year, primarily as a result of decreased revenues on lower enrollment.
- Net loss attributable to the Company for the FY 2016 fourth quarter was \$1.0 million, or \$0.04 per diluted share based on 24.1 million shares outstanding, compared to net income attributable to the Company of \$0.3 million, or \$0.01 per diluted share based on 25.2 million shares outstanding, in the prior-year period.
- Losses before interest, tax, and depreciation and amortization ("LBITDA") for the FY 2016 fourth quarter were \$0.08 million, compared to EBITDA of \$2.5 million in the prior-year period. A table reconciling EBITDA/LBITDA to net income/loss can be found at the end of this release.

Fiscal 2016 Financial Results

- Total revenues for FY 2016 were \$96.1 million, compared to \$117.9 million in FY 2015. The academic segment's total revenue was \$95.0 million, compared to \$116.3 million in the prior fiscal year, as a result of the 14.0% decrease in enrollment, which was partially offset by a 2.5% tuition increase. The Company believes it will achieve increased revenue growth as it continues to execute on its strategic plan, which includes growing enrollments at its current existing locations by investing in new program development and expansion, academic advisor support, and student retention initiatives.
- NAU's educational services expense for FY 2016 was \$26.2 million, or 27.5% of the academic segment's total revenue, compared to \$28.6 million, or 24.6%, in the prior fiscal year. The increase in cost of educational services as a percentage of total academic revenue was the result of fixed faculty costs on lower revenues.
- During FY 2016, SG&A expenses decreased 1.6% to \$72.2 million, or 75.1% of total revenues, from \$73.3 million, or 62.2%, in the prior fiscal year. The decrease was driven by cost-cutting initiatives to better align expenditures with current enrollments, which were partially offset by one-time reversals of \$0.7 million in 401(k) expense and \$1.5 million in non-cash compensation expense related to performance-based restricted stock awards in the prior-year period. There were additional one-time SG&A impacts that created \$2.4 million in unfavorable year-over-year comparisons related to gains and losses associated with disposition of property.
- Loss before income taxes and non-controlling interest for FY 2016 was \$8.2 million, compared to income before income taxes and non-controlling interest of \$11.2 million in the prior fiscal year, primarily as a result of decreased revenues on relatively steady SG&A expenses.
- Net loss attributable to the Company during FY 2016 was \$5.3 million, or \$0.22 per diluted share based on 24.7 million shares outstanding, compared to net income attributable to the Company of \$6.7 million, or \$0.27 per diluted share based on 25.2 million shares outstanding, in the prior fiscal year.
- LBITDA for FY 2016 were \$1.8 million, compared to EBITDA of \$18.1 million in the prior fiscal year. A table reconciling EBITDA/LBITDA to net income/loss can be found at the end of this release.

The following table provides a reconciliation of net income attributable to the Company to EBITDA/LBITDA:

	Three Months Ended May 31,		Year Ended May 31,	
	2016	2015	2016	2015
	(dollars in thousands)			
Net (Loss) Income attributable to the Company	\$ (970)	\$ 256	\$ (5,348)	\$ 6,716
Income attributable to non-controlling interest	9	12	44	38
Interest Income	(25)	(20)	(87)	(148)

Income Tax Expense (Benefit)	(660)	509	(2,894)	4,433
Depreciation and Amortization	1,354	1,491	5,596	6,127
EBITDA (LBITDA)	<u>\$ (76)</u>	<u>\$ 2,468</u>	<u>\$ (1,819)</u>	<u>\$ 18,057</u>

EBITDA consists of income attributable to the Company, less income from non-controlling interest, plus loss from non-controlling interest, minus interest income, plus interest expense (which is not related to any debt but to the accounting required for the capital lease), plus income taxes, plus depreciation and amortization. The Company uses EBITDA as a measure of operating performance. However, EBITDA is not a recognized measurement under U.S. generally accepted accounting principles, or GAAP, and when analyzing its operating performance, investors should use EBITDA in addition to, and not as an alternative for, income as determined in accordance with GAAP. Because not all companies use identical calculations, the Company's presentation of EBITDA may not be comparable to similarly titled measures of other companies and is therefore limited as a comparative measure. Furthermore, as an analytical tool, EBITDA has additional limitations, including that (a) it is not intended to be a measure of free cash flow, as it does not consider certain cash requirements such as tax payments; (b) it does not reflect changes in, or cash requirements for, its working capital needs; and (c) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized often will have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements, or future requirements for capital expenditures or contractual commitments. To compensate for these limitations, the Company evaluates its profitability by considering the economic effect of the excluded expense items independently as well as in connection with its analysis of cash flows from operations and through the use of other financial measures.

The Company believes EBITDA is useful to an investor in evaluating its operating performance because it is widely used to measure a company's operating performance without regard to certain non-cash expenses (such as depreciation and amortization) and expenses that are not reflective of its core operating results over time. The Company believes EBITDA presents a meaningful measure of corporate performance exclusive of its capital structure, the method by which assets were acquired and non-cash charges, and provides us with additional useful information to measure its performance on a consistent basis, particularly with respect to changes in performance from period to period.
